Color song at the close of the dinner.

## - - HELLO - -

You do not like toasts, don't worry, there will be none. Perhaps there is some one from '09 who might say something. Nora Milbourn was coming, but the grasshoppers were so numerous at home that she could not leave. There is Mrs. G. Carver, she will be thinking up a few things, and Pres. Cushing will give us something to remember. 1919 was a great class. The war was over and our boys were home, all but one, Clarence Olson. Isn't that Mrs. Gangivish? She and Archie Kring probably had a lot of fun in school. Did you see Allen Anderson, Blanche Foutch and Marcus Morse talking things over? Do you suppose anything interesting happened when they were here? Over there are three "thirty-niners". Wolf Larson, Basil Lewis and Artie Frank. They may be able to give us a late report on "college doings". There are other people here who may be willing

to give us some "do you remember reports".  
After you have lived over other days, we  
will go upstairs to the reception room.

There will be music and dancing and  
visiting.

—:—:—

We are glad you are here and hope you  
will come next year.
