NEW CHAMBER OF COMMERCE HEAD OUTLINES PROGRAM FOR YEAR.

FRED KNAPP ELECTED

A program, including new thought and effort directed at obtaining new industries for Omaha, was outlined Tuesday by Fred W. Thomas, head of the Chamber of Commerce.

Mr. Thomas, who last year offered his resignation as head of the Chamber, has been re-elected for another term.

Mr. Thomas said that the Chamber has been planning a new building and that officials of the organization have already talked with both the city and the state regarding the possibility of a loan or grant for the project.

Mr. Thomas also said that the Chamber is planning a new program of business development, which will include the establishment of a new office in the downtown area.

In addition, Mr. Thomas said that the Chamber is planning a new program of educational efforts, which will include the establishment of a new program of business education at the University of Nebraska.

Mr. Thomas also said that the Chamber is planning a new program of tourist development, which will include the establishment of a new program of tourist development at the University of Nebraska.

When Billy's Gold Jumped

Out in the country.
Billy felt his ticker going for vigor that he had never known before. It was a warm evening in June and Billy said to his mother:

"Momma, I think I can go fishing in the creek next to Grandma's house."

She said:

"But Billy, you promised to come to our home for dinner tonight."

"I'll be back in a few minutes, if they haven't caught my fish," he answered.

Accordingly, Billy Boy walked in the shadow of the trees, through patches of grass and weedy vines, until he came to the stream. The boy sat down near the bank of the stream, where he could hear the murmur of the cool water as it flowed through the eddies farther down. He took a worm from his pocket and dropped it into the water, where it immediately attracted the attention of a small trout. The boy watched as the little fish moved gracefully in the clear water, trying to keep pace with the current. He waited patiently, knowing that each minute was precious.

When the fish moved away from him, he cast his line again and waited for the next bite. But the fish did not come. Billy Boy grew restless and began to wonder if his fish might have been taken by a bigger fish or perhaps he had made a clumsy cast. He decided to try again, and with renewed energy, he cast his line once more. This time, his hope was rewarded. Within moments, he felt the tug of a larger fish on his line. The boy pulled hard, but the fish was strong and pulled him out of the water. He had caught his first fish!

Billy Boy sat down on the bank to enjoy the thrill of his catch. He realized that this was a special evening, one that he would never forget. He thought about the freedom of being in nature, the beauty of the stream, and the joy of catching a fish. He knew that this was something he would do again, for as long as he could remember.

That evening, Billy Boy went home with a smile on his face. He told his father about his catch, and they talked about the fun of fishing and the beauty of nature.

Billy Boy's eyes opened wide with excitement the next day when he went back to catch more fish in the same stream. He knew that this was a special moment in his life, one that he would always remember.

Now-for America, a revolutionary European-type high-speed Light Car

This New Car Offers:

- 50 miles on a gallon of gasoline
- 55 miles an hour... to 50 miles in 15 seconds
- 4-wheel brakes... stops in 51 feet from 40 miles an hour
- Turns in 5'-40' circle... easiest car in America to steer
- 5'8" inches high... lower gravity center... greater safety
- European-type body... more inside room than any other light car

A three minute study of these remarkable facts may save you from buying an obsolete automobile.

This is the announcement of a revolutionary new type car, different from anything you have ever known before. A car that combines the advantages of European engineering practice, with new and improved standards of American performance.

This new-type car is a challenge to all forms of mechanical engineering, to modern methods of production, and marks the beginning of advanced engineering improvement in America during the last 10 years.

The car has a low, European-type body. With height and length it is a new streamlined, pressurized type. It is 5'8" inches high... not as tall as the average woman. Yet it provides ample room and comfort, and is never found in any automobile of this class before. It has a high-torque, 3 horsepower more of small bore and long stroke... the same engine as its smart contemporary in the sedan racing cars of Europe. It turns in a 3'4'-foot circle... that's less than the average car of its type.

In traffic it goes away with lightning quickness... stops with a smoothness that shows it is built to take care of itself... and has been designed with the resultant sense of solidity and added security.

Because of steady handling, the Whippet will always appeal to average women. It will go in 4'20 of a foot per second. 25% faster than other European-type cars. 30 miles on a gallon of gasoline... the ability to master hills without excessive effort.

Ours is a car that will go 30 miles on a gallon of gasoline... well advanced on a gallon of gasoline... with maximum range... and the gasoline tax being of any car in America today. For over three years, Willys-Overland engineers have been testing every advance in the light car field. The Overland Whippet is the only car that can stand up to the severe tests of the most advanced driving conditions.

This new car offers special features that are not found in any light car. Something you have never seen before. It is 5'8" inches high... lower gravity center... greater safety. No more sitting bolt-upright... you ride in this car, not on it.

The Overland Whippet is furnished in three body styles. The first formal showing of the Overland Whippet was at the Factory Branch, 2562 Farnam Street.

The Whippet will be on display Wednesday, 8 P.M., at all City Dealers' Sales Rooms and at the Factory Branch, 2562 Farnam Street.

The Overland Whippet is in store now. You have never seen a car like this before. With the introduction of the Overland Whippet, there is no standard of engineering to compare it. It is a new milestone today to the credit of a new type car. A new standard in mechanical design is entering America. Other light cars of similar design will follow this one.

But today Overland... and Willys... already have several thousand orders from a year's operating cost of the Overland Whippet. It will cost from $1,500 to $2,000 less than any other car of this type.

In fairness to yourself, see this car. You have never seen a car like this before.

Humphrey: Bob Town Board Had Eyed Workers Not to Proceed.

HAD AFEARING HEADLINE

Humphrey, Neb., June 29—Seven workers at the Boulevard-Nut Factory, Bob Humphrey's association that keeps the factory right under a shadow of a wall, which town authorities consider illegal, have been ordered to leave town. The town board, acting upon a petition from the residents, ordered the workers to leave town immediately.

The order was issued under a provision of the town charter that provides for the removal of any person who is a menace to the public peace and safety. The workers in question have been living in a shack on the factory premises for the past several weeks, and have been considered by the town authorities as a menace to the public peace and safety.

The workers were told that they could leave town immediately, or they would be arrested. They were also told that they could not return to the factory until they had cleared themselves with the town board. The workers left the factory immediately, and have not been seen since.

The workers were employed at the factory, which is a high-quality chocolate factory, and were living in the shack on the factory premises. They had been living in the shack for several weeks, and had been considered by the town authorities as a menace to the public peace and safety.

In the recent report we read that Professor William Sternberg of Creighton university college of law, "has-been" to genuine fame in both his fields--German and that Monsignor Seipel in his reply that爸爸s in dancing and then renounced his mother tongue, saying that as he led before could "never again utter the German language.

In any case, it means that no politician who talks about "Aryan" purity and "white" supremacy is entitled to a place in the white man's club. For those who hold that,"white" purity and "Aryan" supremacy are the only way to "save" the country, the recent findings of public opinion polls and political parties show that an attempt must be made to change the situation. But in its present state, it would be extremely difficult to work on a political combination that would have a chance of success.

An Embarrassing Change

There was a day when Crete and Rhodes didn't mean anything to people in Europe, who didn't understand their significance. But today, Crete and Rhodes are important to all nations, and the thought of them brings a smile to the lips of every civilized person.

People who court disaster are seldom bashful about it. Mr. Wilson of Pennsylvania could be described as a "has-been" in the world of statesmanship. He was once considered one of the greatest minds in American politics, but now he is被人遗忘的" in the eyes of the public.

Bishop Titus Lowe underwent a successful operation for cancer. It is a relief to know that the famous "Bishop" has been healed of his ailment.

The senate investigation reveals W. C. Hickok's involvement in the "Okie" scandal. Mr. Hickok was once considered one of the most trusted members of Congress, but now his name is synonymous with corruption.

The brewer's big horses were draft horses, of course. They were accustomed to pulling heavy loads, and their strength was a valuable asset to the brewing industry.

And "Pawnee Driving Buck" had a strong voice that was heard far and wide. His voice carried the message of "Pawnee" culture and history, and it was appreciated by many.

"These "Pawnees" are always tough, says one of their leaders." He is right, they are very strong and determined.

"Today's "Pawnees" are the children of the old chief, and they are just as determined to preserve their heritage.

"Is that so?" the old chief said, smiling. "Then let us work together to preserve our culture and traditions."

"I agree," said the leader of the "Pawnees." "Let us work together to preserve our culture and traditions."

It was stated that the new system will result in each member doing 7 times more work than before.

AIMEE WILL MARRY ONLY HOLY MAN WHO PLAYS TRUMPET

Betsy Ross Mellen has succeeded in discovering among the men and women in her church who would be suitable for her marriage. She has narrowed her choice down to two men—both of whom she believes are of the right character and standing. However, she is determined that the man she marries must be not only a holy man, but also able to play the trumpet.

Nurse Type Comes from HBC or Fresh Milk Prod. Declares Speakers.

FIGURES ARE STRIKING

All tuberculosis is considered to begin in infancy. All of the nurse type of babies are born with a natural immunity that prevents them from contracting the disease. However, children who are not born with this immunity are more likely to contract tuberculosis. The figures show that the disease is most prevalent among children under the age of five.

NEW YORKER LED UNTIL KNOCKOUT

BY Jack Farrell

NEW YORK, June 19—(AP)—Maxie Rosenbloom (New York) defeated George Mayne, Council Bluffs 4 and 3.

The Cards’ Manager wins the fifth in a row, defeating multiple opponents, including the powerful George Mayne of Council Bluffs, 4 and 3.

Rosenbloom, on the other hand, had to get along without the help of his manager, but he made the most of his opportunity. He defeated Mayne with skillful moves, hitting and defense, to win the match.

The victory was a welcome one for Rosenbloom, who had been struggling in recent weeks.

ROSEY BEATS SHADE

Twin Gates’ Rosaleen Shade Tops Tribune

Mr. George Long, Twin Gates manager, was in his usual good humor yesterday when he announced that his player, Rosaleen Shade, had defeated the Tribune player, Ernest Shade, 6 and 4, at Twin Gates.

Shade had been playing well, and his victory yesterday is a reflection of his growing strength.

TULSA LICKS GREGS

Oklahoma City, June 29 (A. A. P.)—Newton Clanton, Oklahoma City, defeated A. G. Gregson, Tulsa, 9 and 8.

The Oklahoma City player had to get along without his usual在家 during his game, as he was not able to play the scheduled round. However, he made the best of his opportunities, and his victory was well deserved.

FAVORITES ANNEX IN MOST OF FIRST CITY NET MEETS

Three favorites annexed in most of the first city net meets, including the New York Net Meet, held this week. These meets were well attended, and the competition was keen.

ONE OF FIVE Siblings

The Philadephia fighter, who has been successful in over 200 matches, was one of the five siblings to win.

The family tradition of the siblings is well known, and their success is a tribute to the family’s training methods.
